

# ***Important Instructions!***

## **MicroFiber Cloth**

**In Red, Green, Yellow, and Blue**

- **Unique microfiber material with micro-filaments**
- **Made of 80% polyester and 20% polyamide (nylon)**
- **Feels slightly tacky – great for general wiping and cleaning**
- **Traps, scoops, and lifts dust and lint unlike cotton or terry towels**
- **Home Applications:**
  - a. **Removes fingerprints, dust, and dirt without any cleaning solution. Simply use water or use it dry (preferred method).**
  - b. **Can be used wet or dry to clean windows, mirrors, or glass.**
  - c. **Safely cleans flat panel lcd and plasma TV screens, computer monitors, keyboards, CD's and DVD's.**
- **Vehicle Applications:**
  - a. **Quickly removes that hideous white, smoky film on the inside of your car's windshield – quickly and easily – without the need for glass cleaning solution or liquid. Great for side mirrors as well!**
  - b. **Pulls dust from dashboards like magic!**
  - c. **Perfect for LCD screens in autos or minivans – eliminates fingerprints quickly without solutions.**
  - d. **Makes your car polish shine better than using a terry cloth towel.**
- **There are hundreds of uses for this special microfiber material.**

### **CARE OF PRODUCT**

- **To clean: Hand or machine wash in warm water with mild detergent and rinse well.**
- **Do not use bleach or fabric softener.**
- **Do not wash or dry with other cotton items.**
- **To dry: Air dry (preferred) or machine dry (may shrink up to 7% if machine dried). Do not dry with other cotton items.**
- **Do not iron.**
- **Store in a plastic bag to minimize airborne dust between each use.**
